Yours Mr. Stewart - Headlam's
delightful letter, & how pleased
when you write.

How encouraging this
request from Africa
is. As I may help it
I shall send it to Mr.

Allen. Vol. of Teachers' World.

Miss Penniman is to
address a meeting at
Winchester. 200 tickets expected.
This again is thanks to Mrs.

but the greatest joy &
encouragement - has come
from the Glos. Schools.

Mr. Prichard wrote me very
fully & deeply & fully of
your meeting of the 7th -

Oh let me how I could
thank them. Their generous
loyalty takes one's breath
away but - please remember
it is long in Glos.
L - there is the world's coherence.

Mr. Hurdle's wonderful doing.
& the meeting of appreciative
parents were all delightful to us.

My original fond hope is
being fulfilled. That our
County would join the world.
We have had applications
from half a dozen county
Councils in the last week
or so - In information in
the first place. We shall see
what will follow.

You wondered whether
you should speak or read.

Let us have as much
speaking as possible with
reference to notes if you think

Well - The whole thing will
be very informal. It is just
to show people what we
are about - floss would be
a hundred times better!

I hope several flosses
will come. They are certainly
-tively rich in meat. Cheap so
would not mind the
cost. - how low we could
put them up.

You will allow us to put
you up here of course - for
such a fraction of a visit!

I am sending a little
batch of letters instead of those.
With kindest regards
Charles H. Mann

I don't do good work.

I am wondering when
you go up to our Conference
+ to Westminster.

It seems to me they
will not be able to read more
than six or seven books in
the limited time. The point
I am anxious about is
that they should read
our books at our pace

(and narrate) in order that
they should take our questions
on their books.

I can see that in a
 School such has its own book
 & its own methods & change
 must be welcome but
 I hope the H. M. will have
 the necessary courage.
 & that you will win the
 Masters.

Go for to Wales next month.
 I am very well & the glass is
 rising. What news of you?
 very truly yours C. J. Mason
